## Cloned CD Crack

Some guys in the scene are really pumped about it, and can crack/remove it in ... Applications such as Alcohol 120% and CloneCD can make working replicas of .... .. because all steps in making protected CDs can be done in-house; also, there is no generic crack available and this protection can't be copied by CloneCD.. This automatically cracks more than half of all currently existing anti-copying ... But to say that Clone CD can "crack" practically any types of protection would be ...
